Welcome

As Congress organizers we are delighted to welcome you to the European Consensus meeting on peri- and postoperative management following hepatectomy.

Last year we undertook a highly successful consensus meeting on pre-operative assessment before hepatectomy. That meeting was sponsored by E-AHPBA, ESSO and ESSR and took place in Innsbruck.

The subsequent guideline document was published in the British Journal of Surgery in 2023.

Therefore, it is logical to follow that meeting with a similar consensus designed to look at important aspects of peri- and post-operative management of patients undergoing hepatectomy.

The meeting will cover important aspects of the care of patients during and after liver resection and if you are involved in liver surgery, this is a meeting to be sure to attend.

We look forward to welcoming you in Innsbruck.

Priv.-Doz. Dr.ⁱⁿ Eva Braunwarth, MD
