## **Accreditation**

*The meeting is accredited by  
the Ärztekammer (Austrian Medical Association) to provide 18 DFP-Points and  
11 European CME credits (ECMEC) by the European Accreditation Council for Continuing Medical Education (EACCME).*

# Dear colleagues and friends!

It is my great pleasure to welcome you to our educational multidisciplinary meeting on pancreatic diseases 2016, organised by the Department of Visceral- , Transplantation and Thoracic Surgery in Innsbruck together with my dear friend and surgical colleague David Fuks from Institute Mutualiste Montsouris in Paris.

The idea for this type of educational meetings was born in 2013. I am proud to say, that we had three very successful multidisciplinary congresses the last years and are now very much looking forward to 2016, this time in the lovely city of Innsbruck.

Diseases of the pancreas are usually complex, diagnosis as well as treatment should always be based on multidisciplinary discussion and decision making. Having different specialists on board is automatically causing different opinions, sometimes leading to confusion and even dissense. But especially these valuable discussions can be the seed for innovation and medical progress!

We really hope you find the proposed scientific programme well, which is supported by the Austrian Society of Surgery, the Austrian Society of Surgical Oncology and joined by ESSO and the French hepatobiliary Society. We have international and national experts contributing to this special event and try to highlight several hot topics in the management of pancreatic diseases.

Best wishes,  
Stefan Stättner

It gives me immense pleasure and honour to welcome you to the 4th international collaborative meeting being held in the city of Innsbruck in December 2016.

For the first time, Innsbruck meets France under the auspices of the French chapter of EAHPBA (named ACHBT). A combined faculty draws from the best of Austrian and French pancreatic expertise for an intensive 2 day congress of interest to all who manage pancreatic disorders.

The programme covers all aspects of pancreatic disorders, from diagnosis to multidisciplinary treatment and this meeting will be a new opportunity for international clinicians and researchers focused on pancreas research to review advances in the understanding of this pathology, present and discuss their clinical or translational research.

At this meeting, participants will attend lectures, state of the art, clinical case presentation while actively participating in discussions. With the concern for an appropriation of new acquisitions with clear messages to take away.

During the social programme and breaks with industry exhibition, there will be time to both exchange knowledge and also network socially.

I do hope that you will be able to join us in what will be a productive interactive multidisciplinary meeting among colleagues and friends.

Looking forward to seeing you,  
David Fuks

**Thursday, December 15, 2016**

**10:00 – 10:45 Registration**

**10:50 Welcome: D Fuks + S Stättner + D Öfner (Director)**

**I) 11:00 – 12:30 Introduction**

**Moderation: P Götzinger, P Levy**

- |        |  |
|--------|--|
| 15 min | The Pancreas: a good model for interdisciplinary treatment<br><i>S Stättner (Innsbruck, Austria)</i>             |
| 20 min | What makes the pancreas so complex: anatomy, physiology and pathophysiology<br><i>A Sauvanet (Paris, France)</i> |
| 20 min | Risk Factors for pancreatic surgery – patient, surgeon and center<br><i>M Schindl (Vienna, Austria)</i>          |
| 20 min | How to get better outcomes – ERAS<br><i>E Melloul (Lausanne, Switzerland)</i>                                    |
| 15 min | Discussion   |

**12:30 - 13:30 Lunch**

**II) 13:30 – 15:00 Preoperative assessment**

**Moderation: J Holzinger, A Sauvanet**

- |        |  |
|--------|--|
| 20 min | Challenges for the endoscopist in diagnosis<br><i>F Prat (Paris, France)</i>                               |
| 20 min | To stent or not to stent?<br><i>DJ Gouma (Amsterdam, Netherlands)</i>                                      |
| 15 min | The role of modern imaging / assessment after neoadjuvant therapy<br><i>E Gassner (Innsbruck, Austria)</i> |
| 20 min | The role of the gastroenterologist – (rare) non surgical diseases<br><i>P Levy (Paris, France)</i>         |
| 15 min | Discussion   |

**15:00 – 15:30 Coffee Break**

**III) 15:30 – 17:30 Technical aspects**

**Moderation: HJ Mischinger, Th Hackert**

- |        |   |
|--------|---|
| 20 min | Risk factors for surgery and strategies to overcome them<br><i>R Függer (Linz, Austria)</i> |
|--------|---|

15 min	The achilles heel - pancreatic anastomosis: PG vs PJ
15 min	Pro PG <i>S Schneeberger (Innsbruck, Austria)</i>
15 min	Pro PJ <i>V Yip (Liverpool, UK)</i>
25 min	Laparoscopic resections: present and future
	<i>D Fuks (Paris, France)</i>
25 min	Robotic resections
	<i>P Pessaux (Strasbourg, France)</i>
20 min	Discussion

**17:30 Welcome Drink**

**19:30 Get together Dinner**

**Friday, December 16, 2016**

**IV) 09:00 – 10:30 Benign disease**  
**Moderation: F Prat, P Götzinger**

20 min	What is chronic pancreatitis?
	<i>P Levy (Paris, France)</i>
15 min	The role of surgery – when, what and how to treat? – pro surgery
	<i>DJ Gouma (Amsterdam, Netherlands)</i>
15 min	The role of endoscopy – when is the time to stop? – pro endoscopy
	<i>J Holzinger (Salzburg, Austria)</i>
20 min	Cystic lesions - the fine line of under- and overtreatment
	<i>Th Hackert (Heidelberg, Germany)</i>
20 min	Discussion

**10:30 – 11:00 Coffee Break**

**V) 11:00 – 13:00 Malignancy**  
**Moderation: DJ Gouma, R Függer**

20 min	Pathology 2016
	<i>D Neureiter (Salzburg, Austria)</i>
20 min	Borderline resectability - The surgeon's definition
	<i>Th Hackert (Heidelberg, Germany)</i>
20 min	How did Folfirinox change the route?
	<i>A Djanani (Innsbruck, Austria)</i>

20 min	Role of radiation therapy in pancreatic carcinoma <i>E Gerber (Vienna, Austria)</i>
20 min	Percutaneous pain and tumor treatment <i>R Bale (Innsbruck, Austria)</i>
20 min	Discussion

#### 13:00 – 14:15 Lunch

#### Sponsored Lunch Symposium

Nutritional Support  
*Elisabeth Hütterer (Vienna, Austria)*

#### VI) 14:20 – 15:40 *Complications & Management* *Moderation: D Öfner-Velano, P Pessaux*

20 min	Influence of complications on long-term outcomes <i>HJ Mischinger (Graz, Austria)</i>
20 min	Anastomotic leakage - How to deal with it? <i>A Sauvanet (Paris, France)</i>
20 min	The role of IR in the management of complications after pancreatic resection <i>W Jaschke (Innsbruck, Austria)</i>
20 min	Discussion

#### 15:40 – 16:00 Coffee Break

#### VII) 16:00 – 17:20 *Translational research and future perspectives* *Moderation: D Fuks, S Stättner*

15 min	Hedgehog signaling in pancreatic cancer <i>F Primavesi (Innsbruck, Austria)</i>
15 min	Translational research – French experience <i>S Gaujoux (Paris, France)</i>
20 min	Adjuvant/neoadjuvant treatments in 2020 <i>D. Fuks (Paris, France)</i>
15 min	Training in pancreatic surgery <i>V Yip (Liverpool, UK)</i>
15 min	Discussion

#### 17:20 – 17:30 Closing remarks
